as well as with those strategic partners is only the beginning. The key to success for an insurance planning specialist in the 21st Century is the ability to be in front of as many people as possible. This means sitting not only with your own clients but also those of other insurance, financial, and legal professionals. Within these pages Don and Todd share their secrets for accessing this veritable treasure trove with easy to follow and time tested processes with which to build your individual brand and to live a life of significance while serving the general public.

What if you could have the marriage of your dreams—even when you think it's too late? Everyone wants to have healthy relationships. But too many women who've gone through divorce find themselves feeling lost and unsure about how to move forward into readiness for strong future relationships. Barbie and Richard Armenta both have plenty of brokenness in their pasts. Richard's party lifestyle put him one step away from disaster time and time again. Barbie's two failed marriages and other dating relationships left her desperate for affirmation from men. When they came to Christ, they each had to figure out what it meant to live for Him in their dating lives. It was during this process that they found each other—and discovered that adding God's love to theirs was the right combination for lasting love. For those who have experienced divorce, long to heal emotionally and spiritually, and yearn for true intimacy, *The Right Combination* is a shout of hope. The Armentas ground their work in Scripture and pose thoughtful questions to women, encouraging them to begin their own process of discovering who they are in Christ and what it really means to live and date God's way.

*21 Lessons for the 21st Century* by Yuval Noah Harari looks into the most pressing issues that we face today as a global nation as we move towards the uncertainty of the future. With each advancement in technology, it can be used especially as a weapon of war—and now, we live in a world that's more polarized than before. Harari shows the challenges there are in moving through our lives amid the constant change and distortion, but we have to ask the right questions in order to survive. Harari seeks to understand where we came from and where we are going and this captured the imagination of millions of readers around the globe. Here, he invites us to begin questioning our values, beliefs, and meaning in a world full of illusions and lies. We are bombarded with information but clarity is power. *21 Lessons for the 21st Century* becomes an important read especially in tackling the contemporary challenges that arise in today's global state.

This volume questions the changing dynamics of public leadership across different European settings. Chapters highlight emergent discussions on the strengths and weaknesses of current knowledge. Authors investigate the tensions between Anglo-American and economic focused models of leadership that may challenge received wisdom.

The issues surrounding poverty and inequality continue to be of central concern to academics, politicians and policy makers but the ways in which we seek to study and understand them continue to change over time. This accessible book seeks to provide a guide to some of the new approaches that have been developed in the light of international initiatives to reduce poverty and the notable changes in income inequality and poverty that have occurred across many western countries in recent years. These new approaches have to some degree been facilitated by the emergence of new techniques and a growing availability of data that enable cross national comparisons not only of income but also of measures of welfare such as educational achievement, nutritional status in developing countries and wealth and deprivation indicators in the developed world. Including specially commissioned research from a distinguished list of international authors, this volume
