A few weeks ago about 100 women from the highest spheres of French society – authors, artists, performers and academics – wrote an open letter to Le Monde deploring the wave of “ denunciations ” triggered by France ’ s version of the #MeToo movement #BalanceTonPorc (call out your pig). The letter begins, “ Rape is a crime, but... ” and goes on to affirm that a new (British and American ...

What starts as a memoir sometimes turns into history, politics, and even philosophy. I think The Secret Life of the French is better when it sticks to memoir and personal experience rather than analysis. But Wadham shows how although she can never be French, she is getting pretty comfortable doing a fair imitation.

The Secret Life of France was written before the Brexit vote and it isn't about the vote or its possible effects, at all, but by implication Lucy Wadham's book shows that the only way to co-exist and collaborate is first to understand, even if we don't particularly like what we discover. ...more.

Last week I sent The Secret Life of France off to Yves Bonnet, the former French spymaster who features heavily in the book. I have been nervous of his reaction. Today he sent me a text saying: I love your analysis of our President. Be assured that the phrase “ libidinous dwarf ” is now being whispered in the corridors of power.

**the book – The Secret Life of France.**  
For the French, food is still one of the more effortless pleasures of daily life. Parisians will still find a restaurant in their quartier that they like, with a head-waiter they like and an ambiance they like and they will stick with it – often for decades (witness that old lady sitting at her table in the corner, feeding morsels to her lapdog or that old bloke dripping soup down his chin).

The Secret Life of France is to be published in French! In April/May 2013. The publishers are Hugo et Cie who offer a small but eclectic list of titles, ranging as far as I can tell from the serious, to the light, to the tastefully saucy. Any suggestions for titles in French would be very welcome.

In The Secret Life of France, Lucy leads us on a journey through the French moral maze, and examines French attitudes to a range of subjects from marriage and adultery to work and race relations. By taking apart the clichés she helps us gain a better understanding of this nearest and most alien of neighbours, and suggests that on some matters we have much to learn from them.

She lives in France with her four children. Her first novel, 'Lost' (2000), a thriller set on Corsica was shortlisted for the Macallan Gold Dagger Award. The second novel, 'Castro's Dream' (2003), about the Basque terrorist movement, ETA is set in the Basque Country. Her latest book, 'The Secret Life of France,' is an autobiogra

At the age of eighteen Lucy Wadham ran away from English boys and into the arms of a Frenchman. Twenty-five years later, having married in a French Catholic Church, put her children through the French educational system and divorced in a French court of law, Wadham is perfectly placed to explore the differences between Britain and France. Using both her personal experiences and the lessons of French history and culture, she examines every aspect of French life - from sex and adultery to money, happiness, race and politics - in this funny and engrossing account of our most intriguing neighbour. Mort Rosenblum, a celebrated foreign correspondent, invites us aboard his fifty-four-foot launch tied up in the center of Paris and introduces us to the characters who share his life along the river, ranging from eccentric movie stars and reclusive novelists to barge families just scraping by. He then hauls in the bow line for an unforgettable tour of the river itself from its source to its mouth. The Secret Life of the Seine is a love story between man and boat and the river that they live on, a discourse on the sensual beauty of France and the art of living well. In the tradition of A Year in Provence, Under the Tuscan Sun, and Paris to the Moon, here is what Garry Trudeau called "a moveable feast [with] a top speed of five knots—fast enough for fun, languid enough for dreaming. Take a trip you'll never take. This is what books are for."

A hilarious insider ’ s guide to Paris by the author of 1000 Years of Annoying the French: “ Clarke ’ s eye for detail is terrific ” (The Washington Post). Stephen Clarke may have adopted Paris as his home, but he still has an Englishman ’ s eye for the people, cafés, art, sidewalks, food, fashion, and romance that make Paris a one-of-a-kind city. This irreverent outsider-turned-insider guide shares local savoir faire, from how to separate the good restaurants from the bad to navigating the baffling Métro system. It also provides invaluable insights into the etiquette of public urination and the best ways to experience Parisian life without annoying the Parisians (a truly delicate art). Clarke ’ s witty and expert tour of the city leaves no boulevard unexplored—even those that might be better left alone.

PARIS - one of the most visited cities in the world. BUT do you know ... Which is the most romantic spot to say 'je t'aime'? And the sexiest? Where to see fantastic art, away from all the crowds? Why Parisian men feel compelled to pee in the street? How to choose a hotel room where you might actually get a good night's sleep? Stephen Clarke goes behind the scenes to reveal everything Parisians know about their city - but don't want to tell you.

Even the biggest cycling fan can one day wake up to find that he has lost his faith Bad Blood is the story of Jeremy Whittle's journey from unquestioning fan to Tour de France insider and confirmed sceptic. It's about broken friendships and a sport divided; about having to choose sides in the war against doping; about how galloping greed and corporate opportunism have led the Tour de France to the brink of destruction. Part personal memoir, part devastating exposé of a sport torn apart by drugs and scandal, Bad Blood is a love letter to one man's past, and a warning to cycling's future. ‘ Whatever you think about doping, you must read this book ... Well-balanced, considered, compelling ’ Rouleur Shortlisted for the 2008 William Hill Sports Book of the Year

An examination of the pedophile scandals that have rocked the Catholic Church assesses the implications of the crisis, explaining why the Church knowingly covered up decades of abuse and discussing how it has responded.

The bestselling story of Julia ’ s years in France in her own words—and the basis for the film Julie & Julia, starring Meryl Streep and Amy Adams. Although she would later singlehandedly create a new approach to American cuisine with her cookbook Mastering the Art of French Cooking and her television show The French Chef, Julia Child was not always a master chef. Indeed, when she first arrived in France in 1948 with her husband, Paul, who was to work for the USIS, she spoke no French and knew nothing about the country itself. But as she dove into French culture, buying food at local markets and taking classes at the Cordon Bleu, her life changed forever with her newfound passion for cooking and teaching. Julia ’ s unforgettable story—struggles with the head of the Cordon Bleu, rejections from publishers to whom she sent her now-famous cookbook, a wonderful, nearly fifty-year long marriage that took the Childs across the globe—unfolds with the spirit so key to Julia ’ s success as a chef and a writer, brilliantly capturing one of America ’ s most endearing personalities.

If Adam Gopnik's Paris to the Moon described daily life in contemporary Paris, this book describes daily life in Paris throughout its history: a history of the city from the point of view of the Parisians themselves. Paris captures everyone's imaginations: It's a backdrop for Proust's fictional pederast, Robert Doisneau's photographic kiss, and Edith Piaf's serenaded soldier-lovers; a home as much to romance and love poems as to prostitution and opium dens. The many pieces of the city coexist, each one as real as the next. What's more, the conflicted identity of the city is visible everywhere-between cobblestones, in bars, on the métro. In this lively and lucid volume, Andrew Hussey brings to life the urchins and artists who've left their marks on the city, filling in the gaps of a history that affected the disenfranchised as much as the nobility. Paris: The Secret History ranges across centuries, movements, and cultural and political beliefs, from Napoleon's overcrowded cemeteries to Balzac's nocturnal flight from his debts. For Hussey, Paris is a city whose long and conflicted history continues to thrive and change. The book's is a picaresque journey through royal palaces, brothels, and sidewalk cafés, uncovering the rich, exotic, and often lurid history of the world's most beloved city.

A gourmand's guide to the slim life shares the principles of French gastronomy, the art of enjoying all edibles in proportion, arguing that the secret of being thin and happy lies in the ability to appreciate and balance pleasures, not in deprivation, in a guide that includes inspirational true-life stories, simple advice, and dozens of delectable recipes. Reprint.
