Geospatial

Trimble Access offers optional Streamlined Workflows to guide crews through common project types and improve data consistency. These specialized modules make data collection fast and easy. And they allow crews to focus entirely on the deliverables—instead of the software commands for each task along the way. Available modules include: Cadastral

For a last two weeks my colleague and me are trying to use RTCM 1021 and 1023 messages. I have R8s receiver with latest firmware 5.20 and TSC with latest Trimble Access software. In General survey user manual write this. and this. Our network provider use Leica network software (Spider web latest version).
