'helistill' and 'cyclonic' technologies that help prevent damage to critical HVAC components, such as boilers, pumps and valves, reduce maintenance demands and extend the lifespan of any type of installation.

Automatic air vents and
separators - ESC

Get Free Venting Range

The Stourflex range of air and dirt separators provide an ideal solution to the problems of air and dirt in heating and chilled water systems - if air and dirt are not removed, system efficiency is severely reduced. Excess air in a system causes noise and oxidisation which in turn leads to the formation of dirt.
