Whether you are planning to pursue a career within the psychology profession or wondering how best to apply the skills you have gained during your psychology studies to another vocation, this practical book will help you to explore the many avenues open to you. Based on a survey of over 400 UK psychology graduates, *What to do with your Psychology Degree* provides real life information on some of the many occupations and careers open to psychology graduates, ranging from jobs in health, therapy and education to private sector roles in marketing, public relations or the media. By encouraging readers to think laterally about their transferable skills, the authors outline 60 career profiles that are directly and indirectly related to the discipline of psychology. For each occupation the book outlines: The main tasks and challenges involved Personality attributes that are suited to the job Skills needed Further training and qualifications that may be required Voluntary work placement, part-time, and casual job opportunities Links to websites with further information including current vacancies For any psychology graduate, this book is the most practical resource available on career choices; whether you are embarking on your first job or looking for a change of career, this book is essential reading.

*What to Do When Your Storm Strikes* is the result of many years of ministry and problem solving in churches, evangelism, education, and missionary work. The book is basically an exposition of Acts 27, a description of Pauls trip to Rome at the end of his life. It also includes details of the lives of Christians who faced a personal tragedy so great that it threatened their faith.

"An amazing and brilliant instruction manual on how to find purpose, build a career, and live a life of fulfillment." -- DEEPAK CHOPRA A surefire guide to planning your next career move and discovering the job you really want. Jennifer Turliuk was dissatisfied in her corporate job, so she quit. But she had no idea what to do next. After university, she, like so many graduates, focused on just getting a job rather than figuring out the career she really wanted. Instead of getting another degree or going back to school to change her career path, Turliuk embarked on a "self-education journey," interviewing and shadowing some of the world's leading professors, founders, and investors from Silicon Valley companies such as Airbnb, Square, and Kiva. What she discovered was not only a way to find out what she really wanted to do with her own life, but also a career-design process that would help others do just the same. Turliuk's career-prototyping framework uses tested strategies and exercises, including quantified self, design thinking, and lean methodology to help everyone from recent graduates to mid-career workers looking for a change. Let this book be your guide to finding a satisfying and passion-driven career that is right for you.

Nobody knew adversity like King David. He was called and anointed to reign in life, and yet he had to find a way in God to keep from losing it all. In *What to Do on the Worst Day of Your Life*, Brian Zahnd looks into the life of David to discover a pattern of faith we can apply to overcome life's daunting obstacles. In David's story we find a timeless model for how to encounter God's restorative power in the midst of deep tragedy. Join Brian Zahnd, and see what David did on his worst day. You'll see David weep but not get bitter. You'll see him reorient his vision and regain his passion. All along the journey you'll be reminded that God's great work in David's life was not an odd, one-off miracle but a pattern of faith for all who are facing the worst day of their life.
