### *Expert testing, reviews and advice from Which?*

By far, the least risky way (and probably the worst way) to invest your money is to put it in a savings account and allow it to collect interest. However, as is usually the case, low risk means low returns. The risk when putting your money into a savings account is negligible, and typically, there are little to no returns.

A trust is a legal arrangement where you give cash, property or investments to someone else so they can look after them for the benefit of a third person. So, for example, you could put some of your savings aside in a trust for your children. There are two important roles in any trust that you should understand before you read on.
