The Wilderness First Aid Handbook is a handy, quick-reference guide easily accessible with basic wilderness first aid knowledge, but it does not require advanced degrees or experience with medicine and prehospital care. Recognizing that certain knowledge and procedures are outside the scope of a layperson's training, Dr. Grant Lipman limits the use of technical terms and advanced techniques that may be unfamiliar to some readers or beyond their comfort zone. This system-based, easy-to-follow guide assists the first aid provider when encountering most wilderness emergencies, from cold and heat concerns and blister treatments to high altitude illness and lightning injury prevention—and much more. Typically the most challenging decision in the wilderness environment is when to evacuate a sick or potentially sick person, and as such, each section has detailed decision-making steps to inform you of when to be concerned and when to get out. This guidance is based

upon the recent evidence-based consensus statement published by the Wilderness Medical Society on the scope of practice of wilderness first aid. Filled with original, full-color artwork illustrating the techniques and procedures described and with internal-spiral binding and waterproof pages handy for travel into extreme environments, The Wilderness First Aid Handbook is a must-have for every back pocket or backpack.

Packed with step-by-step instructions, how-to explanations, and practical approaches to outdoor and wilderness emergencies, this newly updated guide explains the best ways to respond to just about any medical problem when help is miles or days away. Logically organized, "Medicine for the Outdoors" may literally save a life.

One of the finest first aid books I've seen. --Mel Otten, M.D., Wilderness Medical Society • New chapters on judgment and decision-making and mental health • First-aid topics--patient assessment, shock, soft tissue injury, burns, fractures and dislocations, and chest, head, and abdominal injury • How to handle environmental problems--heat, cold, water, altitude, and poisonous plants and animals

The first teaching manual ever for the "Wilderness First Responder" course, this title represents the cutting edge in medical training for wilderness rescue and self care. The schools affiliated with Tilton's program include the Wilderness Medicine Institute, a subsidiary of NOLS, and SOLO.
